M. Vidgren, M. Silvasti, P. Vidgren, K. Laurikainen, H. Lehti and P. Paronen	Physical properties and clinical efficacy of two sodium cromoglycate inhalation aerosol preparations	1
A. Andreani, M. Rambaldi, A. Locatelli, M. Conti and S. Malandrino	Synthesis and antiinflammatory activity of indole carboxylic acids and esters ..	5
E. R. Garrett, K. Seyda and P. Marroum	High performance liquid chromatographic assays of the illicit designer drug "Ecstasy", a modified amphetamine, with applications to stability, partitioning and plasma protein binding	9
R. Antila and J. Yliruusi	Measurement of specific surface area of pharmaceutical powders by the BET method: effect of drying time and drying temperature	15
T. Niskanen, M. Niskanen, J. Yliruusi and E. Kristoffersson	Granulation in instrumented fluidized bed granulator - evaluation of the effects of two independent process variables on granule properties	19
H. Arwidsson	Properties of ethyl cellulose films for expended release I. Influence of process factors when using organic solutions	25
E. Jensen, E. Falch and H. Bundgaard	Water-soluble aminoalkylbenzoate esters of phenols as prodrugs Synthesis, enzymatic hydrolysis and chemical stability of paracetamol esters	31
C. Larsen, B. Hamborg Jensen and H. P. Olesen	Stability of ketoprofen-dextran ester prodrugs in homogenates of various segments of the pig GI tract	41
A. H. Kahns and H. Bundgaard	Hydrolysis kinetics of 1,3-benzoxazine-2,4-dione (a potential salicylamide prodrug) and various N-substituted derivatives	45
A. Buur and H. Bundgaard	Prodrugs of cimetidine with increased lipophilicity: N-Acyloxymethyl and N-alkoxycarbonyl derivatives	51
K. Mori, S. Hama, T. Okamoto, T. Kishi and H. Sayo	Inhibition of mitochondrial respiratory chain by alkylthiolated 2,3-dicyano-1,4-benzoquinones	57
M. Enquist	Direct resolution of racemic drugs on a chiral α_1 acid glycoprotein column Studies on the retention mechanism and bioanalytical applications	61
P.-G. Karehill	Studies on bonding mechanism and bonding surface area in pharmaceutical compacts	61
A. Lydén Sokolowski	Melanin binding of MPTP and related substances, and manganese: possible connection with parkinsonism	62

Number 2 · 91

H. Arwidsson, O. Hjelstuen, D. Ingason and C. Graffner	Properties of ethyl cellulose films for extended release II. Influence of plasticizer content and coalescence conditions when using aqueous dispersions	65
C. Larsen, B. Hamborg-Jensen and H.P. Olesen	Bioavailability of ketoprofen from orally administered ketoprofen-dextran ester prodrugs in the pig	71
L. Bach Hansen, L. L. Christrup and H. Bundgaard	Ketobemidone prodrugs for buccal delivery	77
M. Vidgren, P. Paronen, K. Bergström, P. Vainio and P. Pikkarainen	Deposition and gastrointestinal transit of conventional sucralfate tablets	83
H. Barsett, K.-A. Haraldstad and B. Smestad Paulsen	Separation and structural investigations of polysaccharides present in the seeds of <i>Ulmus glabra</i> Huds.	87
M. Johansen, K. E. Rasmussen, A. S. Christophersen and B. Skuterud	Metabolic study of pholcodine in urine using enzyme multiplied immunoassay technique (EMIT TM) and capillary gas chromatography	91

S. H. Hansen and M. Nøhr Poulsen	Assay of L-selenomethionine in raw materials and tablets by high-performance liquid chromatography	95
K. E. Malterud and A. Nordal	Structure elucidation of sedoflorigenin, a flavonoid from <i>Sedum acre</i>	99
P. Le Grevès	Substance P and calcitonin gene-related peptide in sensory neurons	101
C. Mellin	5-HT _{1A} -receptor agonists	101
B.-O. Häglund	Diffusion in concentrated macromolecular systems and gels	102
L. Björk	Studies on techniques for the improvement of secondary metabolism derived from squalene in tissue cultures of higher plants	102
C. Jakobson	The arsenic issue 1900-1906. A Study of Swedish chemicals control in the early twentieth century	103
J. R. M. Lundkvist	Conformationally restricted analogues of the muscarinic agent <i>N</i> -methyl- <i>N</i> -(1-methyl-4-pyrrolidino-2-butynyl)acetamide (BM-5)	103
Symposium on Recent Progress in Extrahepatic Drug Metabolism		104

Number 3 · 91

A. Andreani, M. Rambaldi, A. Locatelli, F. Andreani, R. Bossa, I. Galatulas and M. Ninci	Synthesis and analgesic activity of 1-(<i>N</i> -methylanilinoethyl)-indoles	125
H. C. Hansen and A. Spillum	Loss of nitroglycerin during passage through two different infusion sets	131
S. Hama, K. Mori, T. Okamoto, T. Kishi and H. Sayo	Effect of 2,3-dicyano-1,4-benzoquinones with sulfur-containing side chain on mitochondrial lipid peroxidation	137
R. A. Izdore and I. H. Hall	Hypolipidemic activity of aliphatic dicarboxylic acids in rodents	141
E. Jensen and H. Bundgaard	Kinetics of the acid-catalyzed hydrolysis of acyclovir and an ester prodrug in aqueous solution	147
N. A. Zakhari, S. M. Hassan and Y. El-Shabrawy	Spectrophotometric determination of ergot alkaloids with ninhydrin	151
P. Vidgren, M. Vidgren, P. Paronen, P. Vainio, P. Karjalainen and J. Nuutinen	Removal of inhaled ^{99m} Tc-labelled particles of disodium cromogluccate from the lungs	155
H. Weibel, L. Sylvest Nielsen, C. Larsen and H. Bundgaard	Macromolecular prodrugs IXX. Kinetics of hydrolysis of benzyl dextran carbonate ester conjugates in aqueous buffer solutions and human plasma	159
L.-I. Ødegårdstuen, K. Bjerknes, S. A. Sande and T. Waaler	Characterization of enteric-coated tablets and pellets by two <i>in vitro</i> dissolution methods and by scanning electron microscopy	163
J. Kiesvaara and J. Yliruusi	The effect of compression pressure and compression time on the surface free energy of tablets	171
B. Hamborg Jensen and C. Larsen	Quantitation of diltiazem in human plasma by HPLC using an end-capped reversed-phase column	179
A. Fullerton, L. Chrstrup and H. Bundgaard	Evaluation of the transdermal route for administration of narcotic analgesics: Human skin permeability studies of methadone and pethidine	181
E. G. Salole and A. Pearson	Antimycotic imidazoles: X-ray powder diffraction data for econazole and miconazole	183
H. Postlind	Studies on pig kidney cytochromes P-450 in metabolism of vitamin D ₃ and C ₂₇ -steroids	185
P. Claeson	Pharmacognostic studies on scented myrrh with emphasis on the biological activities of the isolated sesquiterpene T-cadinol	185
U. Pongprayoon	Pharmacognostic studies on the Thai medicinal plant <i>Ipomoea pes-caprae</i> (L.) R.Br. (Pak Bung Ta Lae)	186
L. Håkansson	Modulation of acetylcholine release in brain	187
U. Bredberg	Validation of a new method for estimation of drug absorption-computer simulations and <i>in vivo</i> applications	187
E. Heldin	Tartaric acid derivatives as chiral selectors in liquid chromatography	188

T. Lindqvist, C. Mellin, S.-E. Hillver, B. Norén and B. Lindeke	<i>N</i> -oxidation of 4-ethoxyaniline, a chemical study applicatory to the mechanism of phenacetin toxicity	191
H. Helm, T. Backensfeld, B. W. Müller and T. Waaler	The preparation and characterization of digoxin β -cyclodextrin and 2-hydroxy-propyl- β -cyclodextrin complex	199
M. S. Rizk, N. A. Zakhari, M. I. Walash, S. S. Toubar, C. J. W. Brooks and R. Anderson	Gas chromatography and mass spectrometry of dimethylethylsilyl ether derivatives of norethisterone metabolites in plasma	205
H. Salomies	Structure elucidation of the photolysis and hydrolysis products of tinidazole ...	211
T. Loftsson, H. Friðriksdóttir, B. J. Ólafsdóttir and Ö. Guðmundsson	Solubilization and stabilization of drugs through cyclodextrin complexation	215
L. Nørgaard Jensen, L. L. Christrup, N. Menger and H. Bundgaard	Chewing gum and lozenges as delivery systems for noscapine	219
H. Arwidsson, O. Hjelstuen, D. Ingason and C. Graffner	Properties of ethyl cellulose films for extended release III. Influence of process factors when using aqueous dispersions	223
M. Ritala and S. Virtanen	The effect of binder solution quantity and lactose particle size on granule properties	229
P. Holm, J. Holm and P.-O. Lång	A comparison of two fluid bed systems Enteric coating of pellets	235
E. Jensen and H. Bundgaard	Synthesis, enzymatic hydrolysis and physico-chemical properties of <i>N</i> -substituted 4-(aminomethyl)benzoate diester prodrugs of ganciclovir	243
F. Kristjánsson and S. B. Thorsteinsson	Disposition of alprazolam in human volunteers. Differences between genders	249
S. Björkman and B. Roth	Chemical compatibility of mitoxantrone and etoposide (VP-16)	251
J. Moss	Prodrugs of the tripeptide TRH	253
M. H. Farah	Isolation and identification of pharmacologically active compounds from plants used in Somali traditional medicine	254
T. Lindqvist	<i>N</i> -oxidation of 4-ethoxyaniline	254
L. B. Nilsson	Determination of neuroleptic compounds in biological material using liquid chromatographic methods, with special emphasis on peak compression systems	255
P. Rådström	Recombination processes involved in the acquisition of sulfonamide resistance in gramnegative bacteria	255
H. Bothner Wik	Rheological studies of sodium hyaluronate in pharmaceutical preparations	256
